### Masha Leonov

#### Second place, Eastern Juvenile Girls

**Home club:** Tampa Bay Skating Club

I am 11 years old and think that skating is great. I skate at the juvenile level and got into the finals at the South Atlantic Regional Championships this year. I will probably move up to intermediate next year. I am originally from Moscow, Russia. My parents and sister were born there. My sister and I go skating before school, and then after school we go skating again. We skate very hard and really wear ourselves out, but at least it is starting to pay off.

#### Goals

I want to be a U.S. champion and then maybe I can get to the Olympics and be at least in the first five spots. That would really be the event of my life.

#### Hobbies and Interests

I know Russian, English and am learning French and Spanish. I like to make up dances and shows with my sister Katya whenever we have time. We have a lot of fun showing them to friends and family. I also like to play with my two brothers Nikita who is 8, and Andrei who is 11 months.

#### Favorite Skater

Evgeny Plushenko is definitely my favorite skater. He gives me energy to go out and perfect all of my moves. He is really a great skater who inspires me a lot.

#### Influences

I also get a lot of inspiration from my family. My whole family always cheers me on. Without my sister Katya on the ice all the time I don't think I would be as determined and happy to skate as I am now. My two brothers are the source of happiness in my life. Without them I would have no one to squeeze like crazy after a bad performance or after the performance of my life.
